ABOUT

HENGFENGYOU ELECTRIC GROUP

HENGFENGYOU ELECTRIC GROUP, is an electrical enterprise with transmission and distribution industry as its main business, integrating product research and development, manufacturing and trade. Designated suppliers for the world's top 500 enterprises. Its main products include power transformers, medium and low voltage switchgear, distribution panel, circuit breakers, transmission tower, Cable and other power distribution equipment. The group has five departments: Transformer department, Panel department, power transmission tower department, cable department and electrical engineering department. HENGFENGYOU ELECTRIC GROUP has been working hard to provide the best transmission, distribution solutions for users all over the world.

Key figures

- Since: 1990
- Revenue in 2018: 635 million (RMB)
- 550 employees and 30 Electrical Engineers
- 6 production sites in China
- 6% of revenue is invested in R &D

Power distribution solutions that drive the global energy transition

With energy demand expanding in both developed and emerging countries, the challenge for HENGFENGYOU ELECTRIC GROUP is to connect energy with people. The group's teams work as closely as possible with projects and decision makers and design and propose technical and process solutions based on global user needs.

Qingdao Hengfengyou Electrical Engineering Co., Ltd

🔄 WHY HENGFENGYOU ELECTRIC?

- 30 years of manufacturing experience
- 2 years product warranty
- Recognized by more than 50 countries
- Safe, reliable, intelligent and energy saving

🔄 PRODUCT ADVANTAGES

1. The use of corrugated oil tank, robot automatic welding, to avoid leakage.
2. The shell is sprayed after pickling to ensure that the shell paint will not fall off for 30 years (test standard: corrosion resistance of the coating within 100h, hardness ≥ 0.4 , test method according to Chinese national GB/T1730 standard).
3. The transformer oil is Kunlun Lubricating Oil 25#, which are owned by CNPC, in accordance with the Chinese national standard GB/T 7555-2017 to ensure the long-term safe and stable operation of the transformer.
4. Add enough oil before the transformer leaves the factory, and the transformer with oil conservator matches the best capacity of oil pillow to meet the load needs.
5. The coil is red copper
6. Producing high quality silicon steel sheets for China Baosteel and WISCO;
7. Focused on transformer manufacturing for 30 years
8. The high reliability of operation verification in more than 50 countries and regions around the world has been sold to Iraq, Kuwait, the United Arab Emirates, Libya, Zimbabwe, South Africa, Uganda, Rwanda, Ethiopia, Ghana, Uzbekistan, Kazakhstan, Pakistan, Vietnam, Nepal, Bangladesh, Indonesia and other countries, with a cumulative export of 32598 sets

PRE-SALE SERVICE:

1. ISO certified excellent Manufacturer
2. Third-party authoritative certifications: CE, CB, SASO, CCC, UL, CSA etc
3. Flexible payment: T/T, LC, O/A
4. Sufficient inventory, fast delivery time and long validity of the price
5. The whole process of picture tracking can be realized in production and transportation
6. Experienced professional sales team and a strong technical team
7. Sincerely invite customers to visit the company for guidance

AFTER-SALES SERVICE:

1. If there is any quality problem after receiving the goods, you can return the goods free of charge or ship new products
2. We provide our customers with a 1-year product warranty
3. Provide 24-hour, 365-day technical guidance worldwide
4. The VIP customers enjoy our promotional activity
trained by management consultants, is able to provide professional solutions for customers.
4. Our technical team is ready for 24-hour technical support worldwide.
5. Our customer service team ensures on time delivery.

OUR PARTNER

🔄 THE CORNER OF OUR FACTORY

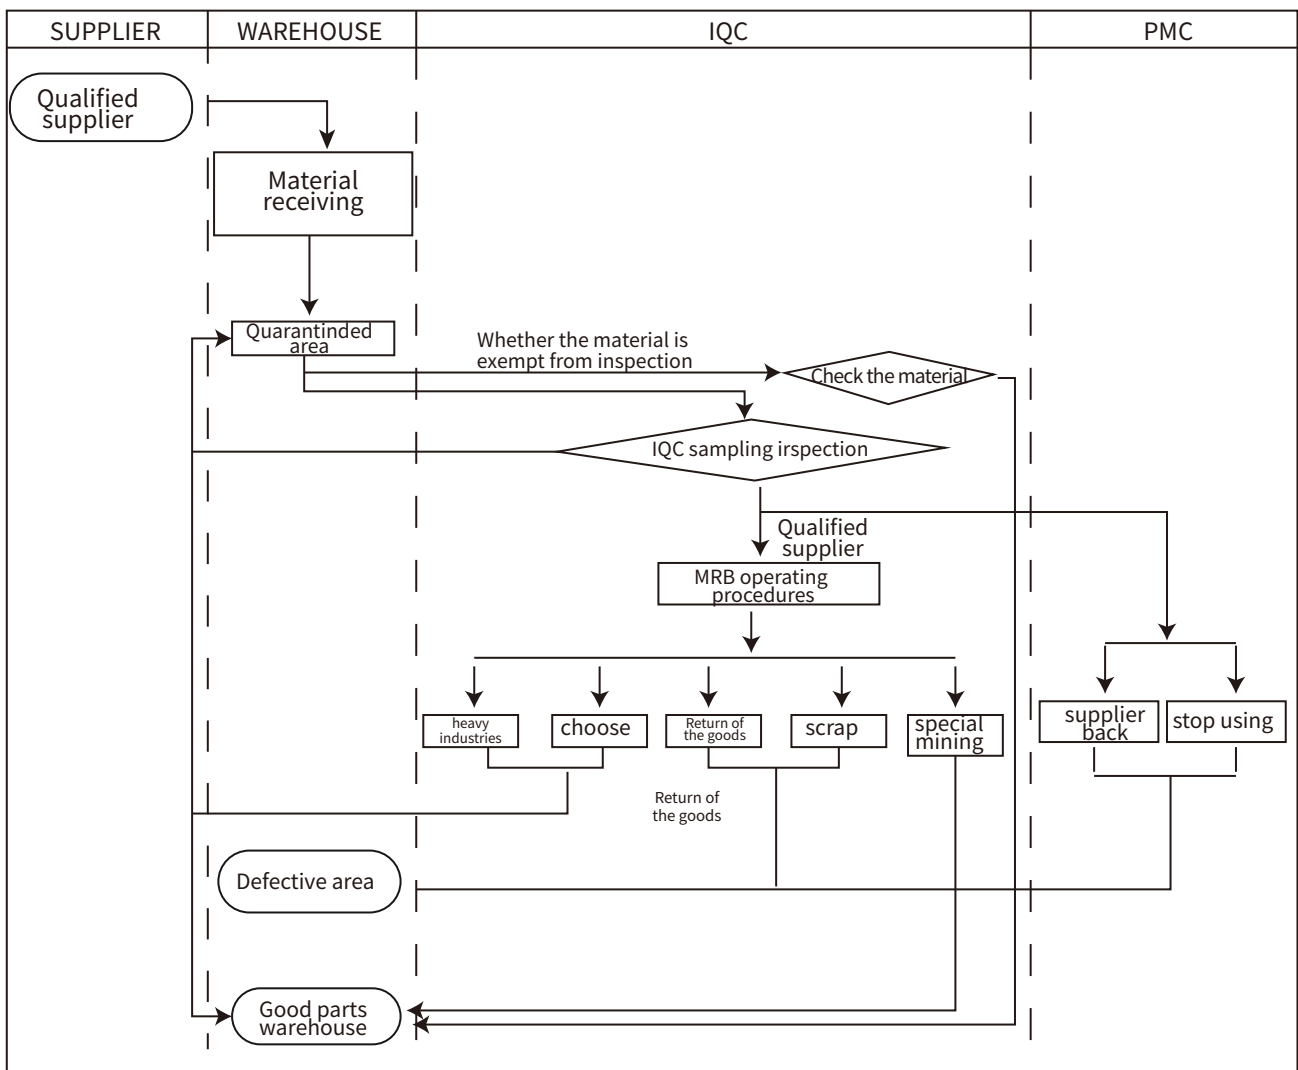

CUSTOMER-ORIENTED
CREATE VALUE FOR CUSTOMERS
MAKE FRIENDS ALL
OVER THE WORLD

CORE CORPORATE CULTURE
THAT IS CUSTOMER-ORIENTED

SQA MANAGEMENT SYSTEM

Hengfengyou Electric attaches great importance to product quality management. On the basis of introducing ISO9001 management, the company has also established SQA (supplier quality assurance) management system. First of all, conduct strict pre job training and on-the-job training for employees to ensure the perfect implementation of Product quality management.

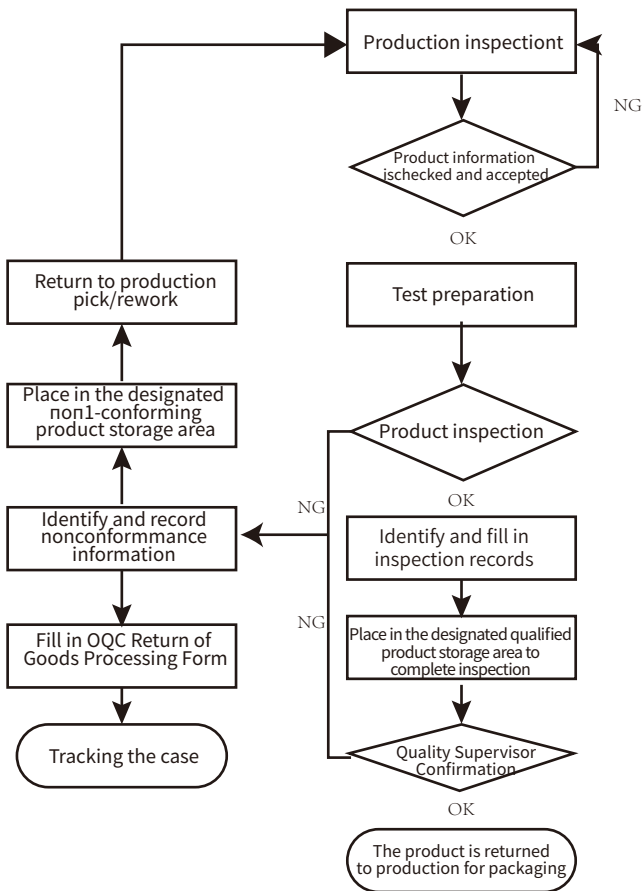

IQC INSPECTION FLOW CHART

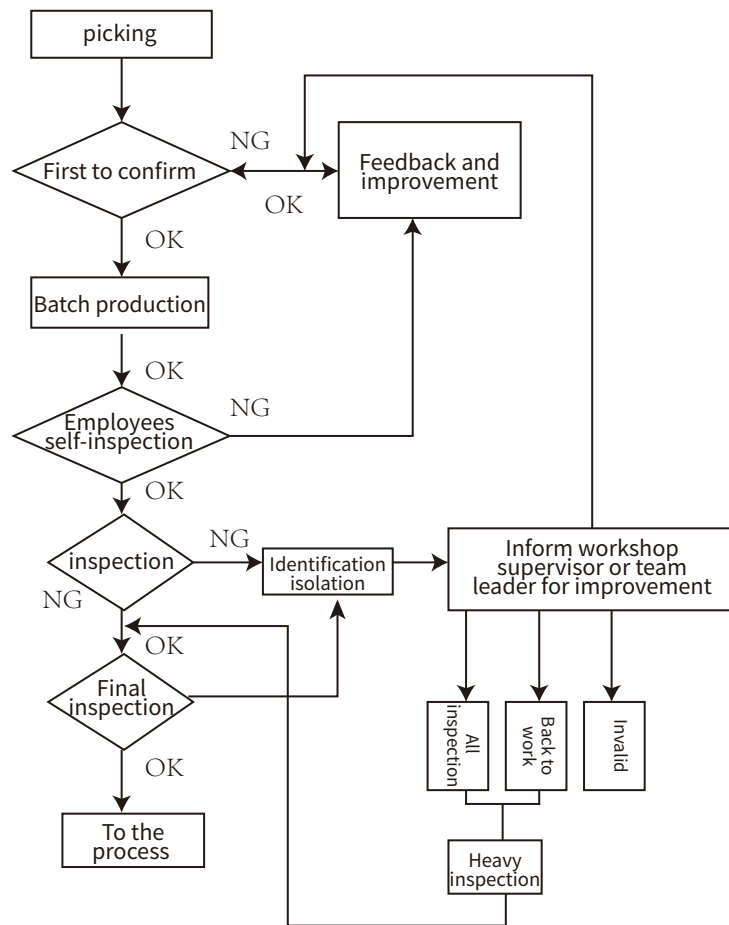

SQA MANAGEMENT SYSTEM

IPQC process quality management
 FQC (finished product) final quality management
 OQC delivery quality management and QA quality audit
 so as to provide customers with high-quality products.

FQC INSPECTION PROCEDURE

IPQC WORK FLOW CHART

🔄 SQA MANAGEMENT OF OIL IMMERSED TRANSFORMER

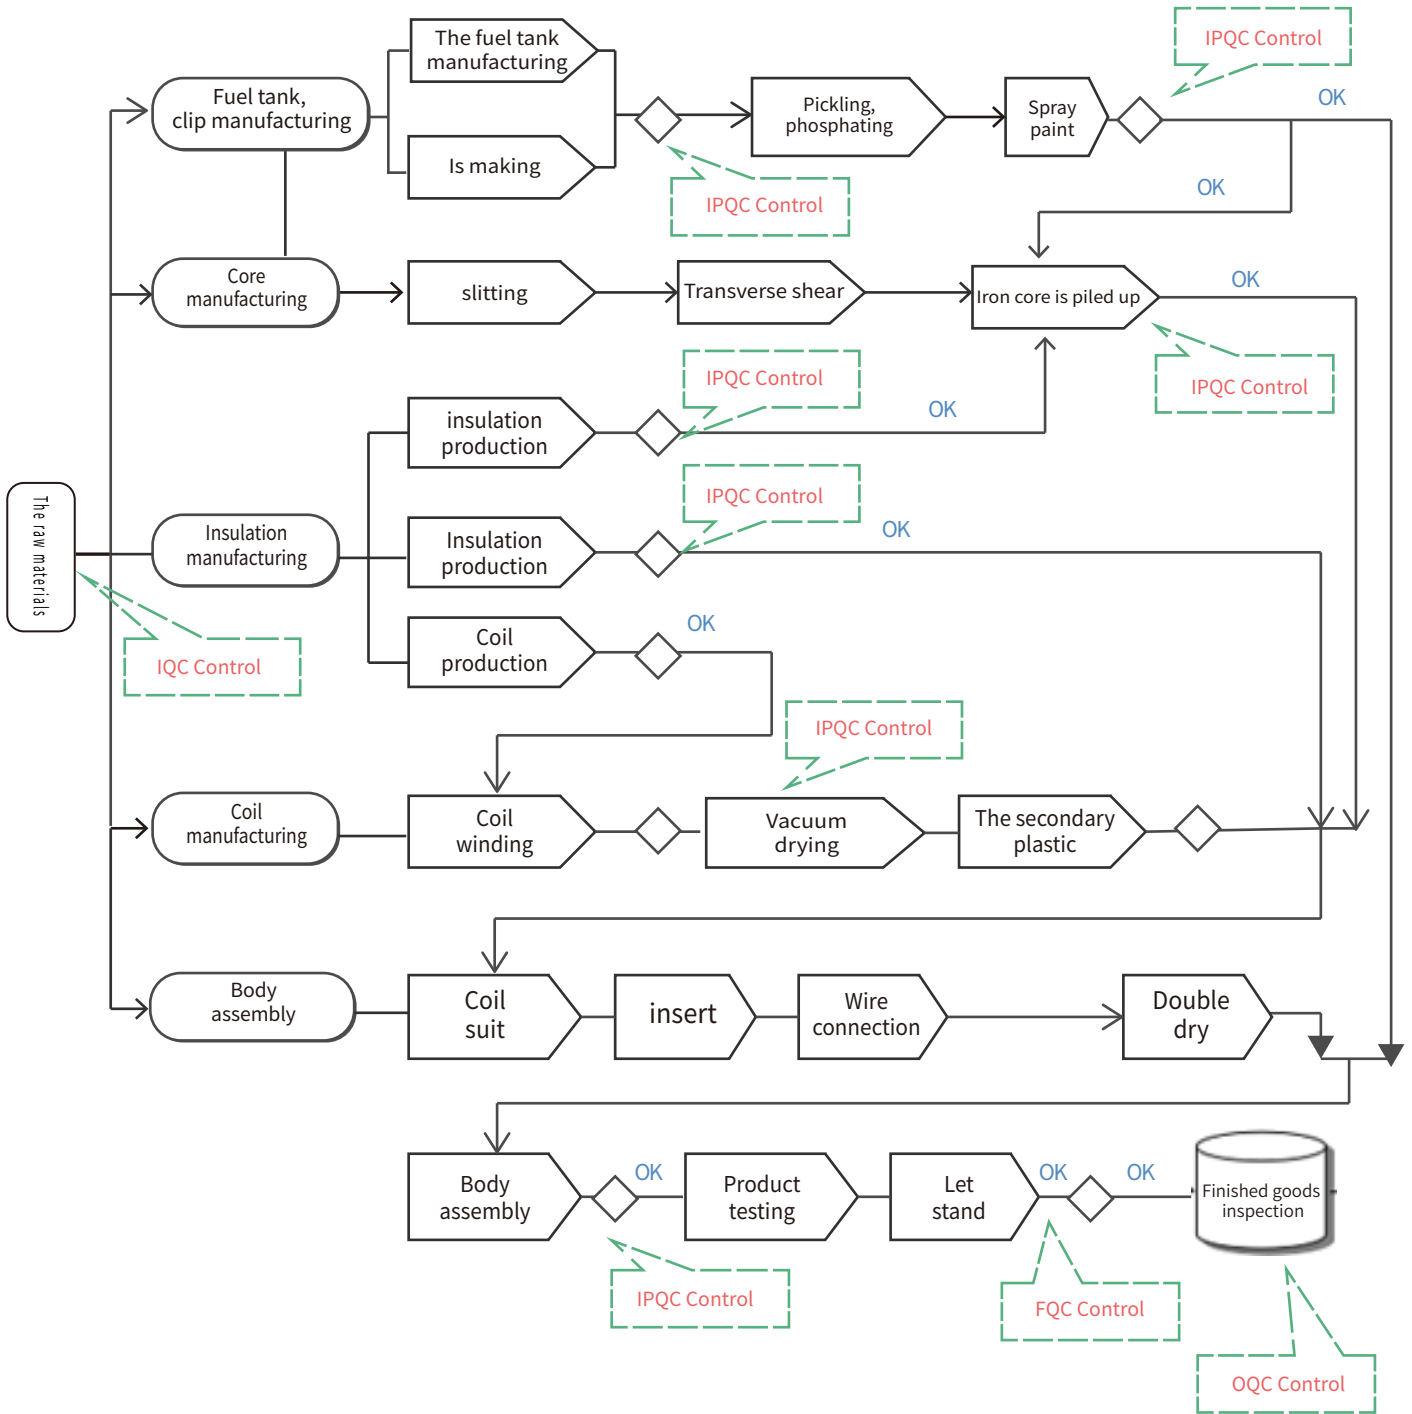

- The actual measurement of the product is superior to GB and IEC standards, CB CCC KEMA SASO certification, etc
- The high reliability of operation verification in more than 50 countries and regions around the world has been sold to Iraq, Kuwait, the United Arab Emirates, Libya, Zimbabwe, South Africa, Uganda, Rwanda, Ethiopia, Ghana, Uzbekistan, Kazakhstan, Pakistan, Vietnam, Nepal, Bangladesh, Indonesia and other countries, with a cumulative export of 12598 sets
- It is mainly used in urban distribution network below 35KV, power supply and distribution system of industrial and mining enterprises and civil buildings
- Executive Standards: IEC 60076 Series, IEC 6013, IEC 60214-1, IEC 60296; GB 1094-1996, GB / T 6451-2008, GB / TT7597-2007, etc

Oil Immersed Transformer

🔄 SQA MANAGEMENT OF OIL IMMERSED TRANSFORMER

🔄 SQA MANAGEMENT OF DRY TYPE TRANSFORMER

- The actual measurement of the product is superior to GB and IEC standards, CB CCC KEMA SASO certification, etc
- Safer, better fire performance, F1 level
- High lightning impulse resistance level (95kV for 11kv products)
- Equipped with perfect temperature protection and control system, it can operate at 120% of rated load under forced air cooling conditions
- The high reliability of operation verification in more than 50 countries and regions around the world has been sold to: Iraq, Kuwait, UAE, Libya, Zimbabwe, South Africa, Uganda, Rwanda, Ethiopia, Ghana, Uzbekistan, Kazakhstan, Pakistan, Vietnam, Nepal, Bangladesh, Indonesia and other countries, with a cumulative export of 13592 sets
- It is mainly used in urban distribution network below 35KV, power supply and distribution system of industrial and mining enterprises and civil buildings
- Executive standard: IEC 60076 series, GB1094 series, GB / T 6451-2008
- The shell materials include aluminum alloy, cold rolled steel plate, stainless steel, etc. for users to choose (protection grade IP20, IP23, etc.)

🔄 SQA MANAGEMENT OF DRY TYPE TRANSFORMER

OUR PRODUCTION EQUIPMENT

The company mainly produces more than 300 sets of equipment, and the key equipment includes the full-automatic vacuum resin casting equipment of Hubers company, 400 / 600mm core automatic cross cutting machine, foil winding machine, the most advanced transformer kerosene vapor phase drying equipment in China, large-scale core stacking turnover platform, large scale assembly platform, etc

Transformer core

High quality silicon steel sheet

Automatic silicon steel sheet slitter

Silicon steel sheet crosscutting machine

Iron core drying furnace and epoxy resin vacuum pouring furnace

OUR PRODUCTION EQUIPMENT

LV foil winding machine

HV foil winding machine

TEST EQUIPMENT

We have a professional laboratory and a complete set of transformer testing equipment, such as transformer comprehensive test bench, partial discharge noise shielding room, insulating oil dielectric strength withstand voltage tester, lightning impulse voltage generator, automatic test bench, etc.

National Standard Laboratory

Multi-function fully automatic vibration instrument

Transformer Ratio Tester

Experimental pressure transformer

Lightning impulse voltage generator

TEST EQUIPMENT

Our company has the ability to carry out all kinds of type tests and routine tests for 220kV and below transformers except for the special test of sudden short circuit, which can fully meet all kinds of test requirements of transformer product development and production.

Comprehensive test platform for power transformer

Impulse voltage generator

🔄 PACKAGE&SHIPMENT

The packaging of all goods delivered by hengfengyou electric shall comply with the regulations of the country of destination and have strong packaging suitable for long-distance transportation and loading and unloading. The packaging shall be intact during transportation, loading and unloading, and vibration reduction, impact and wear prevention measures shall be taken. According to the characteristics of electrical equipment, the packaging shall be separately provided with moisture-proof, rust proof and anti-corrosion protection measures as required to ensure that the goods can be safely transported to the equipment installation site without any damage and corrosion. Before loading and packaging, we are responsible for checking and cleaning the equipment, leaving no foreign matters, and ensuring that the parts are complete.

Transformer packaging and transportation
